

# Early Learning Assessment (ELA)

Get your hands on an instructional  
tool to take your kids to the  
next level and beyond!

The ELA is a free  
tool you can use  
with children  
between 36 and  
72 months!

(See Back for Details)

# The Early Learning Assessment helps teachers to:

- Track a child's growth
- Individualize learning opportunities
- Plan for intervention
- Engage in real-time instructional planning
- Ensure that all children are on the path for kindergarten readiness and beyond

If you are interested in using the ELA, please sign up at <http://bit.ly/elainterest>

## What is the Early Learning Assessment?

The ELA is a formative tool designed to be used in the natural environment multiple times throughout the year. It is based on seven domains of school readiness for children between the ages of 36 months and 72 months:

Social Foundations

Language and Literacy

Mathematics

Physical Well-Being & Motor Development

Social Studies

Science

Fine Arts

Teachers are supported with high quality professional development training and a comprehensive technology system with rich supports and resources.
